

QMP 60 Series

Powerful entry level cash register for networked POS solutions

Highlights:

- Internal battery (optional) for up to 8 h work
- Automatic backup functions
- LAN interface for networking
- USB host interface for external peripherals

Flexibility & security - innovation meets experience

The QMP 60 from QUORION is the ideal cash register solution for small to medium-sized businesses that value the highest quality and efficiency. It combines security, reliability and intuitive operation with easy programming.

High-quality materials and durable components ensure impressive robustness and a long service life. The optimized QMP software offers practical functions and protection against tampering.

With the integrated USB interface, connecting USB sticks, printers, scanners, and keyboards is effortless - for more efficient work.

The sophisticated operation and optimized design make the QMP 60 the perfect choice for a wide range of applications.

Convince yourself today and contact your dealer now!

QMP 60

The QMP 60 provides everything you need for seamless networked cash register solutions. The integrated LAN interface enables easy connection to our online services, such as the QCloud fiscal and report memory, along with remote software updates and programming via QUORION Software Configurator (QSC).

Technical Specifications			
QMP 60 Series			
CPU	ARM Cortex-A9 400 MHz	Interfaces	Serial RJ45: 1x RS232-5V (QMP 60) Serial RJ45: 2x RS232-5V (QMP 65)
Operating System	QMP Linux-based		USB: 1x type A, 1x type B (QMP 60) USB: 2x type A, 1x type B (QMP 65)
Working Memory	32 MB SDRAM		Drawer: 1x RJ11-9V
System Memory	4 GB eMMC		LAN: 1x 100 MBit
Memory Expansion	via USB	Power Supply	100–240 V AC, 1.4 A (external) 9.0 V DC, 4.44 A (internal)
Operator Display	LCD multiline, 192 x 64 px, blue backlight, graphical	Batterie Lilon	up to 8 h - optional intern (QMP 65)
Customer Display	LCD multiline, 192 x 32 px, blue backlight, graphical	Keyboard	42 keys
Receipt Printer	58 mm with easy load	Weight	2.0 kg
Specification Receipt Roll	Thermal paper, width: 57 mm, max. Ø: 46 mm	Dimensions	290 x 110 x 240 mm (LxHxW)
		Operating Temp.	0°C – + 45°C

Modernized QMP software

Powerful software based on Linux & SQLite database system

Reworked operating concept

Modern menu structure for operation & programming of the POS system

Graphical operator & customer display

With new user-friendly layout & permanent status bar

Sophisticated keyboard layout

Easily understandable, illustrated keyboard layout with clear pre-programmed functions
